10th Grade Urmila Mane Vidyalay, Asage, Lanja Percentage: 92.20%	2018-2019

PROJECTS

Packeat wordpress ecommerce website - [Project Link](#)

- A fully functional eCommerce website built using WordPress and WooCommerce to promote and sell traditional Konkan food products online. Developed following the complete SDLC process with tools like Figma, Smush, and Airlift to ensure a user-friendly and optimized shopping experience.

MERN ToDo WebApp -

- A full-stack ToDo web application built using the MERN stack—MongoDB, Express, React and Node.js. The backend uses Express and Mongoose for handling tasks and priorities, while the frontend is styled with React and Tailwind CSS. Users can add tasks, assign priority levels and manage their list efficiently with a clean, responsive interface.

Analog clock -

- A clean and functional analog clock created using pure HTML, CSS and JavaScript. It features real-time updates with smoothly rotating hour, minute, and second hands, showcasing the power of front-end web development without any libraries or frameworks.

ACHIEVEMENTS/HOBBIES

Volleyball team winners in college level sports events / Traveling, Sports (Cricket, Volleyball).
